

# RUSHIN SANDEEPANA

**Address :** Battaramulla, Colombo, Sri Lanka  
**Phone :** (070) 6632221 / (071) 6141297  
**Email :** [rushinsandeepana77@gmail.com](mailto:rushinsandeepana77@gmail.com)  
**LinkedIn :** [linkedin.com/in/rushin-sandeepana](https://linkedin.com/in/rushin-sandeepana)  
**Portfolio :** [rushinsandeepana.github.io](https://rushinsandeepana.github.io)

## PROFESSIONAL PROFILE

A B.Sc. in Computer Science was earned from the University of Colombo School of Computing, with a strong eagerness to gain valuable experience as a software engineer. Aiming to leverage acquired knowledge and skills in a challenging environment, contributions are sought toward organizational growth while staying actively engaged in exploring emerging technologies. Known for being self-motivated, hardworking, and quick to learn, with a commitment to delivering excellence in every task.

## SKILLS

- **Languages:** PHP (Laravel), JavaScript, HTML, CSS, C, C++, Dart
- **Frameworks & Tools:** React.js, Redux, Node.js, Express.js, Vue.js, Bootstrap, TailwindCSS, Flutter
- **Systems:** Amazon Web Services (AWS), Firebase, GitHub, Postman
- **Database :** MySQL, MongoDB
- **Roles:** Full-Stack, Front-End, Back-End, Client Support

## EXPERIENCE

### Software Engineer (Internship)

Ceylon Linux (Pvt) Ltd

2023 December - 2024 August

- Contributed to the development and maintenance of a Sales Force Automation (SFA) system, enhancing the automation of sales processes and improving system performance.
- Participated in four major projects, gaining hands-on experience in full-stack system development with a focus on scalability and reliability.
- Developed backend services using PHP Laravel and crafted user interfaces with Vue.js, ensuring seamless integration and a responsive user experience.
- Managed and maintained databases using MySQL, optimizing data storage and retrieval for better application performance.
- Collaborated with a cross-functional team to troubleshoot issues and implement system optimizations, reducing overall system downtime by 30%.
- Received training in Laravel, Vue.js, and MySQL, leading to a strong understanding of modern software development practices within a corporate environment.
- Enhanced technical skills through real-world problem-solving, improving proficiency in software engineering and collaborative development.

## EDUCATION

- **Bachelor of in Computer Science**  
University of Colombo School of Computing (UCSC)  
2021 - 2024
- **Therapuththa National School- Ambalantota**  
Combined Mathematics-B  
Physics-B  
Chemistry-B  
2019 G.C.E. A/L

## CERTIFICATIONS

- Introduction to Dart offered by LinkedIn
- Building RESTful APIs with Node.js and Express offered by LinkedIn
- Introduction to PHP Basics offered by Great Learning
- Python Fundamentals offered by Great Learning

## OTHER PROJECTS

- **MarkAssist (Online paper marking system)** - Developed a software application to automate and streamline the marking of handwritten academic answer sheets.  
Tech Stack : React , TailwindCSS, Python, MongoDB, OpenCV, FireStore, AWS, RabbitMQ, OpenAI  
[github.com/DinithKumudika/MarkAssist/tree/rushin-new](https://github.com/DinithKumudika/MarkAssist/tree/rushin-new)
- **CropFello (Island-wide vegetable/fruit distribution System)** - Connected vegetable and fruit sellers with buyers through an online platform for efficient crop distribution.  
Tech Stack : HTML, CSS, JavaScript, PHP, MySQL  
[github.com/PamithWelikala123/CropFello/tree/Rushin](https://github.com/PamithWelikala123/CropFello/tree/Rushin)
- **MrTalk (Real-time group chat application)** - Developed a dynamic, user-friendly group chat app using Flutter for cross-platform mobile development and Firebase for the backend.  
Tech Stack Used :Flutter, Firebase, FireStore  
[github.com/rushinsandeepana/ChatApp\\_Flutter\\_Firebase](https://github.com/rushinsandeepana/ChatApp_Flutter_Firebase)
- **YOUBLOG (Blog Site)** - The facility for posting special blogs is provided to users on YOUBLOG, and the ability to update and delete their posts is also offered.  
Tech Stack Used : React , Express, Node , MongoDB  
[github.com/rushinsandeepana/You-Blog](https://github.com/rushinsandeepana/You-Blog)
